

## **Prescription Refills:**

When you need a prescription refilled please call your pharmacy (local or mail order) and allow three business working days not including Saturday to complete your request. If you have no refills remaining, you still call the pharmacy.

Refill requests will be sent directly to us by local pharmacies and mail order pharmacies.

If you are planning to go on vacation please check your supply. If you need an early refill please notify your pharmacy regarding this.

Please call the pharmacy and speak to a pharmacy staff person to see if your refill prescription is ready for pick up.
